

Professional Engraving Adds The Finishing Touch!

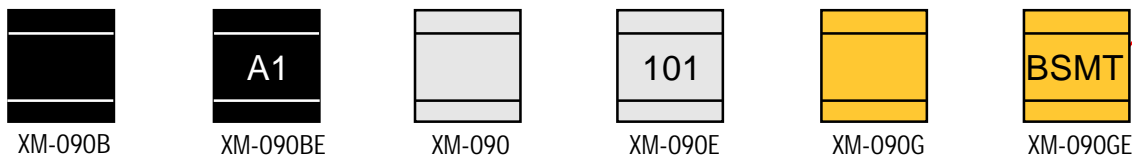

ENGRAVING

Engraved plastic tabs can be easily ordered by mail for all **LEE DAN**® lobby panels, directories, and Bommer mailboxes. The background is black with engraved white letters and numbers. Engraved tabs are very attractive and legible, and enhance the appearance of any installation. Character size is preset depending upon the specific tab model. Usually, character size is approximately 3/16" high. However, the size will be adjusted to the number of letters required, and the available engraving space. **LEE DAN**® also engraves custom signs!
