ARCHITECTS' & ENGINEERS' SPECIFICATIONS

“Regency™” Lobby Panel: Intercom panel shall be a Lee Dan vandal resistant Regency™ series or approved equal. Panel shall be constructed of heavy extruded aluminum with permanently engraved solid aluminum black anodized plungers. Pushbuttons shall be self-wiping type with positive screw terminals. Pigtail connections will not be acceptable. Pushbuttons shall be mounted on a sub-plate mounted behind the extruded aluminum module(s). Pushbuttons shall be activated by pressing the solid metal plungers.

Speaker shall be 3.5", 1 Watt, 45 Ohm with mylar cone. Paper cone speakers are not acceptable. Speaker shall be protected by a double metal speaker baffle. Intercom panel shall include an oversized 6.5" wide integral alphabetical directory protected by Lexan® sheet. Narrower directory modules shall not be acceptable. Speaker, pushbuttons and directory components shall all be field replaceable. Glued in place components are not acceptable. Mounting screws shall be tamper resistant Scrulox type. A Lee Dan model SC-1 Scrulox type screw driver shall be provided with each lobby panel for directory maintenance.

Lexan® is a registered trademark of General Electric.

IR-104E Apartment Stations (option 1 of 3*): Suite stations shall be Lee Dan model IR-104E or approved equal. Stations shall be molded in white, high impact ABS plastic. Individual pushbutton controls shall be provided for Talk, Listen, and Door release functions. Button identification shall be provided in English, braille, and by symbols. Pushbuttons shall be self-wiping type with positive screw terminals. Pigtail connections are not acceptable. Speaker shall be 2.5", .3 Watt, 45 Ohm. Pushbuttons and speakers shall be field replaceable. Glued in place components are not acceptable. Mounting screws shall be tamper resistant Scrulox type.

IR-204E Apartment Stations (option 2 of 3*): Suite stations shall be Lee Dan model IR-204E or approved equal. Stations shall be molded in white, high impact ABS plastic. Individual pushbutton controls shall be provided for Talk, Listen, and Door release functions. Button identification shall be provided in English, braille, and by symbols. Pushbuttons shall be self-wiping type with positive screw terminals. Pigtail connections are not acceptable. Speaker shall be 2.5", .3 Watt, 45 Ohm. Pushbuttons and speakers shall be field replaceable. Glued in place components are not acceptable. Mounting screws shall be tamper resistant Scrulox type.

IR-444 Apartment Stations (option 3 of 3*): Suite stations shall be Lee Dan model IR-444 or approved equal. Momentary action, self-wiping pushbuttons shall be provided for TALK, LISTEN, and DOOR operations, with 5/16" thick solid aluminum plungers. Stations shall be permanently stamped with DOOR/LSTN/TALK legends for tenant operation. The speaker/microphone shall be a mylar cone high sensitivity type with voice-frequency response. Paper cone speakers are not acceptable. Speaker shall be protected by a double metal speaker baffle. Station shall be constructed of 20 gauge stainless steel. Connections shall be made by positive screw terminals. Pigtail connections shall not be acceptable. Mounting screws shall be tamper resistant Scrulox type.

*Choose from more than 70 different stations. Request brochure A-101.

Amplifier: Intercom amplifier shall be Lee Dan model PK-543A or approved equal. Amplifier shall be powered by a Lee Dan model PS-30A pigtail transformer (16VAC/30VA), or approved equal, which shall be UL listed.
