SEE WHAT YOU'VE BEEN MISSING... WITH ENTERVIEW™

ENTERVIEW™ was designed to make your home as safe as it is comfortable!

ENTERVIEW™ is easy enough for every family member to use! The large 3.75" video screen provides a sharp image, for clear positive identification of all visitors to your home or office. Our stylish handset is comfortable to operate, and the amplified audio circuitry provides natural sounding voice communication.

With ENTERVIEW™ guarding your front door (and up to two other entrances) you'll never again open your home to a stranger! Your family will enjoy the privacy of previewing all visitors before speaking to them. If you are wary of your visitor, ignore the signal and watch them leave....or call for assistance if they don't!

**VM-104
Video Monitor**

Van-Guard® Style
8 Button Panel
Vandal Resistant

Bravo™ Style
8 Button Panel
Solid Polished Brass

Quantum™ Style
8 Button Panel
Stainless Steel

The camera is protected with tamper-screws, and LEXAN® sheet. Multi-button panels are standard with easy to use alphabetical directories, protected by LEXAN® sheet.

The VM-104 flat screen video monitor is easily installed and tested. Besides the standard audio and video features, you also get built-in controls for brightness, on-off, electric door release, power-on light, an auxiliary button for special functions, and a button to turn your viewer on at will.

More than functional, the VM-104 is attractively styled in soft white and compactly sized (8 1/4"H x 7 3/8"W x 2 1/4"D) to look great in any room.

Entry panels are designed to be attractive, compact, functional and long-lasting. All ENTERVIEW™ systems include our tough Van-Guard® entrance panel with special enhancements. Your panel will be custom manufactured for you of rugged extruded aluminum, with solid metal buttons. If you prefer, your panel can be crafted in stainless steel, or gleaming solid polished brass!

We use CCD board cameras for a superior image, and long service life. Cameras are secured in our own custom mounting to provide viewers with a true image (not a mirror image).

If you need only two monitors for a garden apartment or brownstone, several for an office, or over 100 for an apartment or office building, ENTERVIEW™ can give you the security you need, with exceptional value and reliability.

**You'll never again
open your home
to a stranger!**
