FEATURES

- Ideal for applications with limited space, or for applications that do not require a directory, or where a separate directory exists

- Provides visitor access control into apartment buildings, gated communities, condominiums, office buildings, factories and industrial sites

- Visitors use the 1802 to communicate with a resident, who can then grant or deny them access from their touch-tone telephone

- Provides service for up to 1000 residents

- Programmable directory codes can be set from 1 to 4 digits
- Surface or flush mount styles available

ACCESS CONTROL SOLUTIONS

1802 AUTO DIALER
TELEPHONE INTERCOM

The model 1802 is an ideal telephone entry system that is suited for applications that have limited space and can be used in residential as well as commercial applications, applications that do not require a directory, or in applications where a separate directory exists. Visitors are easily identified by voice communication and can be granted or denied access directly from a touch-tone telephone.
