

## 600 Lb. Magnetic Locks

The DKML (DoorKing Magnetic Lock) series of 600 Lb. magnetic locks offer a wide range of high quality locking systems and brackets to accommodate most of your access control door locking requirements. These locks are designed for locking doors and are available with LED lock status indicators, relay signaling and built-in delay timers. These locks are also available in a mortise mount style.

### Standard Features

- 600 Lbs of holding force
- Quick release “pop” button assures instant release when power is removed
- Operates on 12 or 24-volt DC power, field selectable
- Designed for interior use
- Surface or mortise mount
- Models available for single or dual doors (surface mount only)
- Fail-safe
- 5-year warranty

### Models

- **DKML-S6-1** Standard model. Available in mortise mount style (**M6**).
- **DKML-S6-1L** Same features as the standard model and includes an LED status indicator (R/G) and built in signal relay. LED glows green when lock is secure, red when lock is un-secure. Relay activates with LED to provide a dry contact signal device. Available in mortise mount style (**M6**).
- **DKML-S6-1LT** Same features as the DKML-S6-1L and includes a built-in delay timer adjustable from 1 to 90 seconds. Available in mortise mount style (**M6**).
- Surface mount models are available for single or dual doors
