

Remote Line Powered Phone Horn/Strobe

Hooks up with RJ-11 plug

B-KHE-1000-PP

www.leedan.com info@leedan.com Toll-Free: 800-231-1414

The Edwards B-KHE-1000-PP remote line powered phone horn/strobe operates on standard AC ringing voltage (85 - 115V AC) to provide remote audible and visual indication of a ringing telephone. The units injected molded housing and cover ensure security.

The unit operates on the ringing voltage and matches the ringing cycle of the telephone.

The horn/strobe easily installs to the telephone using a modular telephone jack. Cord and jack are not supplied.

For use in wide area coverage in noisy areas such as machine shops and equipment operating areas.
