152 SERIES DESKTOP CONCIERGE/SECURITY SWITCHBOARD STATION

152C Pictured

152 SWITCHBOARD MASTER

The Elvox® 152 Series switchboard is a compact master for systems of up to 800 or more apartment stations. The 152 provides conversation with apartment stations as well as door entry panels. Lighted switches annunciate both incoming and outgoing calls. Call up and call down audible signalling is by pleasant electronic tone. Easy to use with simple call and answering procedures provide a quick and error free communication system. The 152 also has provisions for Day/Night operation with part time doorman by switching conversation and control from the switchboard to a locked door entry panel when switchboard is not manned. Remote lock control pushbutton allows the concierge station to control a remote door lock.

Larger panels can be custom configured in multiple cabinets. Contact Paso for assistance with larger switchboards.

General

Custom Labels

Switchboards are shipped with sequential numbering unless otherwise specified. Custom label can be ordered for any switchboard. Up to 4 characters per apartment can be custom printed on the pushbutton lenses.

Custom Configuration

Any switchboard can be special ordered in differing configurations. The most popular is to split large switchboards into 2 or more sections to allow the sections to be mounted in rows.
