**Architects and Engineers Specifications**

The videointercom monitor station shall be Elvox® Model 6600. The monitor shall be designed for use in Tone and AC ring systems using 6680 power supplies. The monitor shall be flush mount and include a 4" high resolution (625 lines) LCD color screen. Full duplex open voice communication shall provide exceptional voice fidelity. The monitor shall include controls for door release, self activation, brightness, color level and 2 auxiliary function. An LED indicator shall provide confirmation of door release. The monitor shall be constructed of high impact ABS soft white plastic (Anthracite, or Titanium optionally). The monitor shall allow for ring volume and communication volume settings. An LED indication of ring tone volume mute shall be provided. The display shall have a swivel mount to allow for viewing from a range of angles. The Elvox model 6600 is specified.
