

## ELVOX 8-DIGIT DIGIBUS HANDSET

### APPLICATION

The Elvox™ Model 6204 is an advanced Petrarca Style apartment handset for use with the 8 digit DigiBus system. The 6204 can be use standalone as an audio only station or combined with a model 6000 video monitor using a 6145 wall pate or 6142 desk kit for a complete audio-video station.

The 6204 provides full duplex conversation with the calling entry panel, concierge call/door release control and signal to activate the 6000 monitor when both are mounted together for audio-video operation.

Restricted lock feature allows only the station in conversation with door to release lock
