

Video Digital Recorder (VDR)

EZVR4 4 channel

EZVR8 8 channel

The easiest to use video recorders in THE WORLD!

Key Features

EZ Record: Using the front panel pushbuttons, select 24, 72, 240, 480 or 960 hours recording time. The EZVR does the rest. You do not have to worry about frames per second, quality level, or compression settings.

Auto Record: If you do nothing more than plug the EZVR in and walk away it will automatically start recording using factory pre-sets. As close to fool-proof as you can get.

EZ Playback/Search: With just a touch of the front panel pushbutton.

EZ Backup: Using a USB Flash Drive via a front panel pushbutton. Player software and .avi conversion software is automatically downloaded eliminating the need for law enforcement agencies to load software onto their PCs.

The EZVR4 and EZVR8 feature simple **2-page menu structures** (in English, Spanish and French)

Use of these menus is optional, other than setting the time and date.

We have programmed in the most common and useful functions as factory defaults.

- 4 or 8 BNC Camera Inputs / 1 BNC Video Output
- 4 or 8 Alarm Inputs / 1 Alarm Output
